# IPM WORKSHOP ON HEAVY QUARKS AND HIGGS BOSON PHYSICS

February 2-3, 2016 (Bahman 13-14, 1394)

## Topics:

- Higgs boson
- Top quark
- Bottom quark

## Invited Speakers:

- Albert de Roeck, CERN, Switzerland
- Adam Falkowski, LPT, France
- Mikolaj Misiak, Warsaw Univ., Poland

## Organizers:

- Mojtaba Mohammadi Najafabadi
- Siavash Neshatpour

The aim of this workshop is to offer a review of the recent theoretical developments and experimental results from the LHC on Higgs boson, top quark and bottom quark physics. We will be accepting abstracts for a poster session.

## Place

Institute for Research in Fundamental Sciences (IPM), Larak Building,  
Opposite Araj, Artesh highway.
