

## **Faculty Positions in Accelerator and Experimental Particle Physics**

### **School of Particles and Accelerators, IPM**

The School of Particles and Accelerators at IPM invites applications for tenure-track positions at the rank of assistant professor, in the accelerator and experimental particle physics. A Ph.D. degree in accelerator or in experimental particle physics by the date of application is required. The successful candidate in accelerator physics is expected to play a leading role in the related activities of the group in HL-LHC, CLIC, FCC, or AWAKE projects at CERN.

The candidate in experimental particle physics is required to have extensive experience in the conception, design and construction of detectors, and the analysis of data with the CMS experiment at CERN.

The candidates are encouraged to apply with a proven track record of excellence research in the field of accelerator or experimental particle physics. Application materials should include a cover letter, research interest, a CV, and at least five letters of recommendation to be sent to [particles@ipm.ir](mailto:particles@ipm.ir).

The deadline for application is 7th of December 2022.
